Certifications

- **HCIA-5G Course**
- **HCIA-BIG DATA Course**

Languages

- **French**
- **English**
- **Arabic**

Interests

- **Travelling**
- **Music**

Office Suites

- **Adobe (Word, Excel, Powerpoint ...)**
- **Latex**

Data Analyst

Professional Experience

June 2025 : Data Analyst- Cyclad MAROC for the client AXA GO

Key responsibilities:

- Integration of data from Power BI or manual measurement
- Control of integrity/quality of the evidence and data provided.
- Follow-up and ensure integrity of documentation and strategic evidence.
- Ensure continuity of issue/demand from users to L3 team.
- Build and provide reports, KPI and intermediate scores from PBI with Excel.

June 2022 - June 2025 : Data Analyst- ALTEN DELIVERY CENTER Morocco for the client Stellantis.

Key Responsibilities:

- Created and maintained Power BI dashboards (DAX, ETL) for data visualization
- Collected and integrated data from multiple heterogeneous sources
- Detected anomalies in operational data and performed root cause analysis
- Supported and enhanced existing BI solutions in collaboration with business teams
- Designed new dashboards to meet specific user requirements
- Developed PySpark scripts in Jupyter Notebook to process large-scale data (Big Data)
- Automated data processes using Apache Airflow
- Developed and deployed machine learning models for predictive analytics and pattern recognition
- Implemented NLP techniques for text analysis and sentiment analysis on customer feedback data

Technical Environment:

PySpark, Python, SQL, Power BI, Hadoop, Apache Airflow, Jupyter Notebook, Machine Learning, NLP, TensorFlow, Scikit-learn, Statistical Analysis

April- September 2021: Final Year Project Internship- CHU Ibn Sina Children's Hospital

Implementation of a decision-making and predictive solution for pharmaceutical data using Machine Learning and Deep Learning methods

Keywords: Business Intelligence, Deep Learning, Machine Learning, Python, ARIMA, LSTM

August - September 2020: Academic Internship - GM-SOFT

Designed and developed JBGERMAN OIL's e-commerce website using Scrum methodology, with front-end implementation in HTML/CSS

Education

2021 : School of Information Sciences (Ecole des sciences de l'information), Rabat

- **Data and Knowledge Engineering**

2018 : Classes préparatoires aux grandes écoles d'ingénieurs (CPGE) Day Prépas, Beni Mellal

2015 : Baccalaureat in Physical Sciences Lycée Annasr , Beni Mellal

Academic Projects

- **Developed a convolutional neural network (CNN) for flower species identification**
Python, TensorFlow, OpenCV, Scikit-learn
- **AI-Powered Customer Service Chatbot : Built a conversational AI agent to automate customer interactions** Python, NLTK, TensorFlow
- **Video Game Sales Statistical Analysis : R, Python, Pandas, Excel**
- **Inventory Management Mobile Application : Android Studio, Java, Firebase, SQLite**

Skills

BIG DATA : PySpark, Apache Spark, Hadoop

Deep Learning : TensorFlow- keras

Machine Learning : Classification- Regression- Clustering

Business Intelligence : Talend - Pack Microsoft SQL Server- SSIS- SSAS

Data Visualisation : Power BI - Qlik Sense - Tableau

Data Base: SQL- MySQL

Statistical Analysis and Operations Research

Languages : Python - Java - JavaScript- Php- PL/SQL

Conception: UML

Project management: Agile Scrum

Mobile : Android

Cloud: Azure

GED : Alfresco - Maarch Courier
